SUMMARY

Committed and goal-oriented Computer Science student at Lovely Professional University, seeking a Software Engineering position. Proficient in HTML, CSS, JavaScript, React.js, Node.js, Next.js, Express, and MongoDB. Demonstrated ability to learn quickly and excel in fast-paced, teamoriented environments.

EDUCATION

Bachelor of Technology - BTech in Computer Science

Lovely Professional University • CGPA: 7.19 • Aug 2022 - present

WORK EXPERIENCE

Frontend Developer | Intern

Enliven Technologies Pvt. Ltd • Nov 2024 - present

- Built interactive charts and dashboards by integrating APIs for data visualization.
- Managed application state with state management libraries for responsive Uls.
- Collaborated with teams to implement UI/UX designs, ensuring user-friendly solutions.
- Maintained code integrity using version control systems for seamless collaboration.

PROJECTS

PrintEase

- Built an online print-on-demand platform for PDFs, photos, PPTs, books, and custom prints.
- Developed a secure admin panel for managing orders and tracking requests.
- Implemented NextAuth & JWT for user authentication and authorization.
- Designed a scalable MERN stack architecture for high-performance handling.
- Integrated file upload and processing features for seamless printing.
- Optimized UI/UX for mobile responsiveness and better user engagement.

My Blog

- Built a blogging platform using the MERN stack and Tailwind CSS for responsiveness.
- Added user authentication for enhanced security and personalized access.
- Developed RESTful APIs for smooth front-end and back-end communication.
- · Managed version control and collaboration using Git.
- Implemented a rich text editor for creating and editing blog posts with user-friendly features.
- Optimized database queries in MongoDB for faster data retrieval and improved performance.

CERTIFICATIONS

MongoDB Certification | MongoDB

- Utilized MongoDB for efficient storage and retrieval of data.
- Gained expertise in schema design, indexing, aggregation, and replication.
- Implemented CRUD operations and advanced queries, optimizing database performance.

React.js Development | Linkedin

- Built dynamic, responsive user interfaces with React.js.
- Managed state efficiently using Context API and Redux.
- Optimized performance through lifecycle methods, hooks, and modular components.

TECHNICAL SKILLS

- Languages: C/C++, Java(proficient), Python, Javascript(Backend)
- Full Stack Development: HTML, CSS, Javascript, React.js, Next.js, Tailwind css, Node.js, Express.js, MongoDB
- Database: MongoDB, Mysql
- Developer Tools: Intellij, VS Code
